

Guidance on Assessments for NYSED approved CTE Programs in Agriculture

The purpose of the assessments listed below is to demonstrate what technical assessments have been approved in NYSED approved CTE programs in agriculture. This list is certainly not all the potential options or vendors that can be chosen and approved within a NYSED approved CTE program in agriculture. It is also not mandatory to choose a technical assessment from this resource. Technical assessment choice is part of the self-study process in all NYSED approved CTE programs.

*Please note that all technical assessments must include a written and performance component.

[NOCTI Assessment List](#)

[Precision \(YouScience\) Assessment List](#)
