Re: Updated Guidance on Driver and Traffic Safety Education in Response to COVID-19

**Background**

On March 25, 2020, NYSED issued guidance related to Driver and Traffic Safety Education (DTSE) programs in response to the closure of school buildings due to COVID-19. This guidance was updated on April 20, 2020 to allow DTSE programs to permit students enrolled in these programs during the Spring 2020 session to complete unfinished classroom and laboratory portions of instruction in either the Summer 2020 or Fall 2020 sessions. On August 7, 2020 Governor Cuomo announced that schools would reopen in the fall for the 2020-21 school year with the determination of how individual districts reopen (in-person, remote, or

parent/guardian will deliver. Upon completion of this instruction, the parent/guardian must document \_\_\_\_\_ school that the student has received the 24 hours of combined in-vehicle instruction, observation and applied practice. \_\_\_\_\_ responsibility to determine how the parent/guardian will document and attest to the completion of the 24 hours, as the school is ultimately responsible for the issuance of the MV-285 Certificate of Completion.

This guidance applies to all Spring 2020 DTSE programs that were unable to complete the classroom and/or laboratory portions of instruction due to COVID-19 closures and to all other NYSED-approved DTSE programs offered in New York State until such time as schools can safely resume in-person DTSE instruction.
